### THE GAME

**COPPINWOOD** is a golfer's paradise located on 357 acres of rolling terrain with stunning elevation changes, in the midst of quiet farm country 30 minutes northeast of Toronto. Designed by Tom Fazio, the par 72 layout features five sets of tees to provide players of all skill levels with an exceptional golf experience. Superbly manicured bent grass fairways are framed by blue grass rough and fescue grasses. Subtly contoured greens are inviting and reward well hit shots. Bunkers are minimalist, dramatic, and remarkably consistent in their playability. The par 3's are as unique as they are picturesque. This is Fazio at his finest, a dramatic, walkable, modern classic, playable for novice and serious golfers alike, sure to surprise and challenge on every round.

This distinctive layout is playable by every level of golfer with five sets of tees: White: 5,126 yards; Blue: 6,053 yards; Gold: 6,558 yards; Black: 7,050 yards; and Championship.

Your registration to play as a single, or part of a foursome, includes full use of the practice facilities (all three of them), a BBQ lunch pre-game, a tournament gift and of course, an excellent buffet dinner in Coppinwood's beautiful club house overlooking the 18<sup>th</sup> green.

Registration & Lunch from 12:30 pm

Shot Gun Start at 1:30 pm sharp

Dinner and event auction, prizes and awards to follow

### THE KEY TO A CURE

Canadian scientists, funded by Cystic Fibrosis Canada, are providing world leadership in the development and testing of new therapies for cystic fibrosis.

Unlocking A Key to a Cure takes time, commitment and resources. It costs **\$5000** per month to hire a post-doctoral researcher who will work to find a solution to the harm that lung infections cause our CF patients. It costs **\$2500** per month for a doctoral research position in in CF laboratories and research centers. It costs **\$1250** per month to fund a summer student research grant or **\$500** to fund a one week scholarship for a CF graduate student.

Donations will help lift off some of the most novel ideas, enabling an investigator to lead the way to a major breakthrough in CF research and help bring an up-and-coming researcher from fields as diverse as genetics and microbiology.

The statistics show that one person dies from cystic fibrosis in Canada each week and approximately one in every 3,600 children born in Canada has cystic fibrosis of which 60% are diagnosed in their first year of life.

COME OUT AND JOIN US FOR AN EXCELLENT AFTERNOON  
OF GOLF AND CAMARADERIE, ALL IN THE NAME  
OF CYSTIC FIBROSIS

Direct donations for a "Key To A Cure" can be made through Cystic Fibrosis. All donations will receive a charitable tax receipt for their contributions.

## THE DETAILS

The format is full scramble with the best ball off each drive being played forward. The best score for your foursome on each hole will count on your scorecard at the end of the day. All golfers and guests will be eligible to purchase raffle tickets towards some very exciting prizes. In addition, opportunities will be available to win a number of "specialty" prizes around the course during your game. We had a "hole-in-one" winner in 2009!

There are many ways to play. Sign up as a corporate partner, contribute gifts to our prize table, sponsor a hole or just make a simple donation to Cystic Fibrosis. Whichever way you can participate in this worthwhile event would be money well spent.
